

Should allow HEIC, JPEG, PNG photo uploads - currently doesn't allow HEIC

Not supported by Browsers

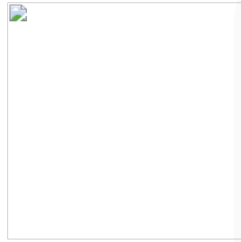

WHY can't the preview look like the actual listing? I would like it to look EXACTLY the way it would look on the website view.

Not showing all the pictures I uploaded. Only showing 1 picture.

Already Done

AT AUCTION

[EDIT](#)

[Mark Sold](#)
[Mark withdrawn](#)

Views: 250 Saves: 25

The mark sold button doesn't do anything and when you press Mark withdrawn it shows our pop up. If this is how it has to be then the mark sold/ withdrawn button should be 1 button again but just longer to fill the space.

The pending button was there so if someone had put a deposit on a horse or real estate and was in the process of buying it but it wasn't sold yet, it would inform other buyers that it's pending. The pending would have to show on the front end somewhere. Pending does not mean deleted .. a horse or real estate would stay on the site and be charged. The owner could unmark pending which shows the horse or real estate to be active again.. That was the original intent as to why I had it there. If this is too complicated, then just combine the sold/withdrawn button and use the single pop up we have.

Working on it

- **Horse Listing:**
- The main pic is correct here. **Done**
- Only 1 picture out of 20 are showing **Done**
- Location : should not show address. It should only show: Lafayette, NJ **Done**
- There needs to be more space between the tag (At Auction) and heart and the horses name **Done**
- The age is not pulling over correctly I entered 1 year old **Done**
- Buttons should be the same font as the front and caps. Price should also be Caps. **Done**

HORSES FOR SALE (5) HORSES SOLD (25)

Placeholder text: Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book.

Front end of website

- The Auction countdown timer is hard to read. Should we make the font just white? Or do you have any other suggestions? We don't have to say till end of auction.. round make it shoulder and say Auctions Ends and put it all on 1 line straight across.
- Address is not showing up correctly: should say Lafayette, NJ
- Price words are WAY too big
- Pictures don't scroll anymore.
- Favorite button doesn't change colors when clicked. The heart should also change color (when either is clicked the other should also same color). This should follow the user throughout the website so they know the favorited it already. It also scrolls to the top of the page once clicked. It should stay right there and the toast should come up without going to the top of the website.

How do they pick the main picture? Could have it where the first pic is the main pic. If they want to switch it they can rearrange the photos order??

Preview should look like the actual listing.

- not all pics are showing up

- Information is not being displayed right. (see below picture of how I gave the info & layout originally)
- Font needs to be bigger . Hard to read
- Remove the # sign in front of Grass Pastures, Dry Lots, Run-In sheds. It will say yes or no and then the number.
- Information not populating correctly. I checked off trails on property, trail access and hay fields. They all say no instead of yes.

BARN TYPE :	Home with Acreage		
# OF BARNS:	1		
# OF STALLS:	21		
RUBBER MATS IN STALLS:	yes		
BARN FLOORING:	Rubber		
TACK ROOM:	yes	Heated: no	
WASH STALL:	Hay loft, Hay room, Hay stall, Additional hay barn	Cold Water: yes	Hot Water: no
AIR CONDITIONED BARN:	no

All need to be the same!

- Price is not showing on search page - also price is way too big. It should all be caps lock.
- Spacing between the tag (AT AUCTION) and name need to be the same
- Age not displaying if you don't add months.. should be able to just show year old, just months old or both 1 year 9 month old
- Address - TOWN, NJ (not the street address)
- Buttons should all be caps lock
- This this but wider like the search page ad.
- I think the auction count down timer needs to be a different color.. maybe solid white. It's hard to read.
- Heart (top right) and Favorite button should be connected. Either or can be clicked and the heart will fill in and the whole button will fill in.

Names Must Match!

MORE INFORMATION →

Your selected documents:

- Valid NJ driver license/non-driver identification card, or a Motor Vehicle Commission issued driver license renewal form (displaying residential address).
- Checking or savings account statement from a bank or credit union issued within the past 60 days.
- I know my Social Security number and will enter it on the application. MFC will verify it electronically.
- US or US Territory birth certificate certified copy filed with a state office of vital statistics or equivalent agency in the individual's state of birth.
- Unexpired standard photo driver license from NJ or any state, or US Territory, and the District of Columbia.
- Bank/credit union statement or record (within the past 60 days).

Note: Financial information can be backed out.

Photo Documents: You have now completed all of the steps necessary to prepare for the MFC's REAL ID Verification. To ensure that you are able to pass as smoothly as possible, print the page and bring it along with your selected documents to a MFC office.

Get it Right the First Time! Every document you bring must be an original, or a certified copy marked with a state or municipal seal. If you are unsure if your document meets the requirements, or if you require printed labels and additional proof of an address, you may be required to submit additional documentation. Submitting your Social Security number is required for REAL ID.

Note for Married Women and others with Name Changes: You may need to bring a marriage certificate to verify your name change. Please check the [Names Must Match!](#) page to ensure your documents will work for REAL ID.

All Ads should look the same. They all look different or show information differently. The color of price also need to match this. Make them all look like this ... That way it stays uniform.

The only difference is that the listing page won't have the view all details button

1. Sold / Withdrawn Popup Position

- The "Mark Sold / Withdrawn" popup should appear centered on the screen (both vertically and horizontally).
- Right now it opens all the way to the right.
- Please restore it to the centered modal position like it was previously.

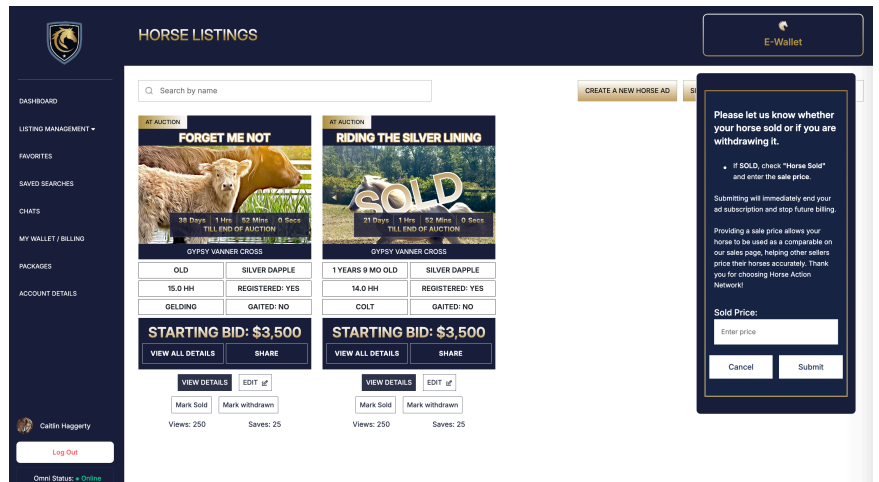

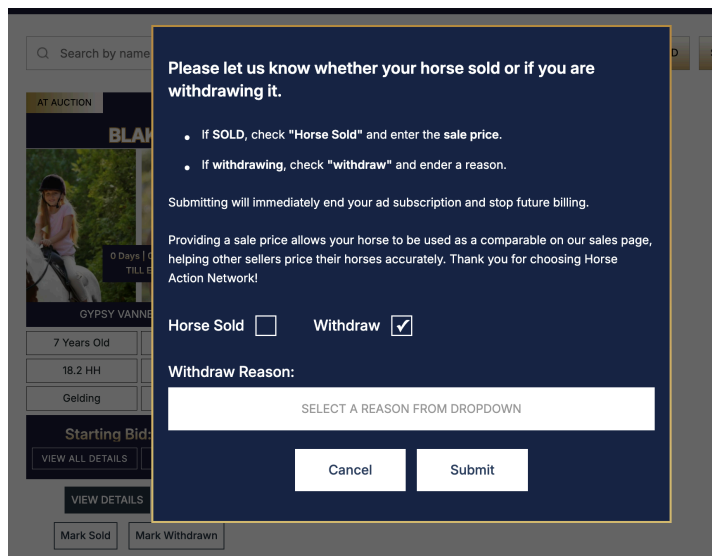

2. Pending Status Behavior

- The Pending button should remain as a listing status option.
- Pending is used when a horse or real estate listing has a deposit or transaction in progress but is not fully sold yet.

Pending should behave as follows:

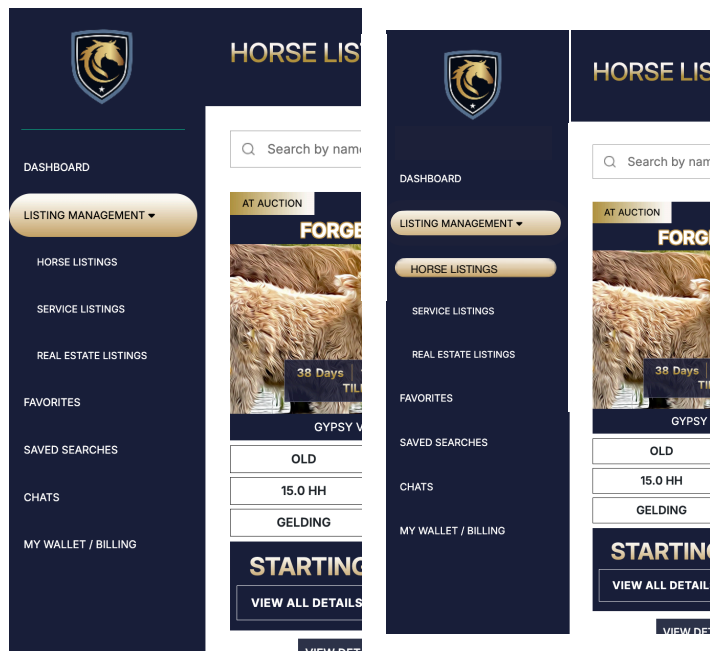

- The listing remains on the site (not deleted).
 - The listing continues billing/subscription normally.
 - The listing should display a visible "Pending" label on the frontend so buyers know it is currently in process.
 - The owner/admin should be able to remove Pending, which returns the listing to Active.
3. Fallback Option (if Pending is complicated right now)
- If implementing Pending status properly is complex at the moment, we can temporarily remove Pending and instead combine Sold and Withdrawn into one button using the single popup we currently have.

- also on the pop up Make the default check mark on **Horse Sold** not withdrawn. I want people to see sold first.

Listing Management drop down:

- when you click on any of the listing tabs under listing management the tab closes. Leave the tab open and the tab your on highlighted.
- Non of the other tabs highlight when they are selected. There should be an indication of what tab you're on
- Make the highlight smaller (like shown in 2nd pic)
- Remove Green line. I thought we were doing a white like between the logo and the title of the dashboard page. See 2nd pic.

- There is plenty of space under account details where the menu doesn't have to disappear when Listing management is opened. - See yellow box of open space.
- W

- Filter buttons are not working on any of the listing pages. I have 1 active horse and 1 sold horse. Neither ad show where they are supposed to. They only show up in Show.. I do not have a withdrawn.. but if the other two aren't working, then I assume that one isn't either.

- Show sounds weird.. it should say All Ad Types. Please change.

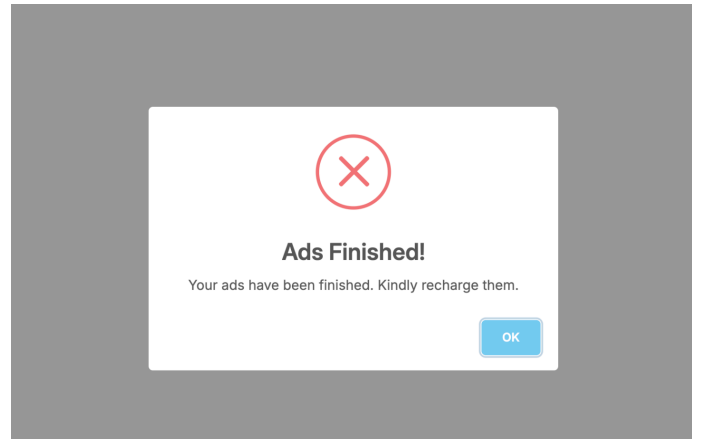

- If we are bringing back pending.. there should also be a pending tab filter.

Filter buttons

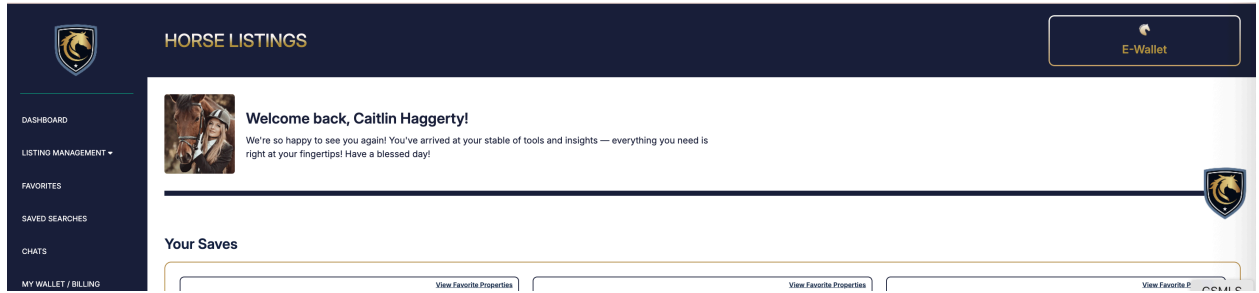

- Create New Horse Ad
- All Ad Types
- Active
- Pending
- Sold
- Withdrawn

- Service listing doesn't need filters

- I only bought 1 credit to make sure it limited the ads. This is great. The pop up should say - We're sorry! You don't have any more credits. If you would like to create more ads please click below. (or something like that) Then give a button" Buy More Show Points" .. next to the OK button.

- Main Dashboard page shouldn't say Horse Listings. All pages should say what the page is. Dashboard should stay Dashboard

- Logo needs to be flipped.
