Property Ads:

Seller Profile - I just realized we do not have a Seller Profile page for property Seller's. I do not think we need one at this point in time. Possibly later we can do that to sell in addition to agents who want to market themselves. So remove the Seller profile button and move View All Details to that place. So there should only be 4 buttons instead of 5.

Share Button - Should bring up social media (Facebook, instagram, FB messenger, text or email)

Chat with Seller - Works but - Just the state is on the header of the chat. It should be the full property address.. Like 96 Decker Rd | Lafayette, NJ 07848

Bedrooms: 3 . Bathrooms: 2 . Acerage: 75

Right now it has the state and the state abbreviations and then 2 peoples names. Please fix this.

I added a new listing and the placeholder is not on the dashboard like we talked about adding. When someone presses go to the dashboard , so they don't have to wait for the upload. There should be a placeholder that says Your Ad is Loading and will be live soon (or something like that) . This should be for Horses, Services and Properties.

Backend

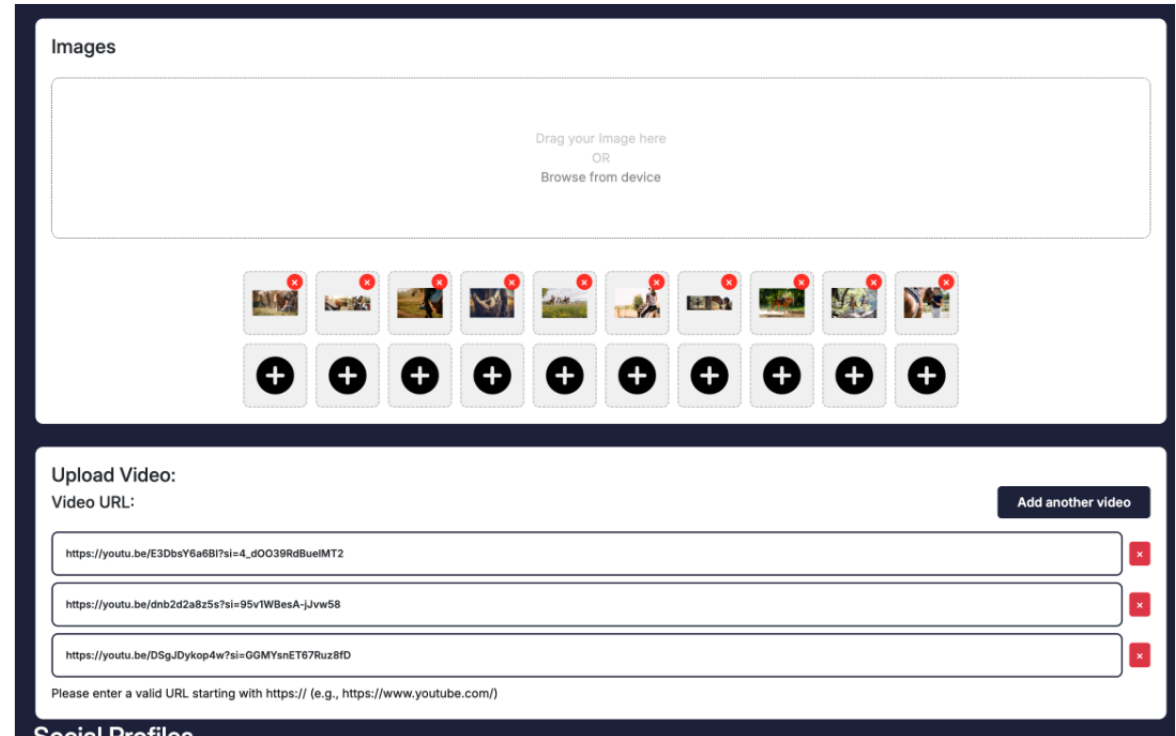

This was never discussed before.

I uploaded 20 Photos and 5 videos. They disappeared after uploading so when I went back to check where they went, they were gone. Then I uploaded 10 more photos and 2 more videos and pressed update and it gives no indication that it's updating. it just looks like it's frozen, then eventually saves. There should be some indication because it looks broken.

** Then when I went to the listing it showed 29 photos.

** I added videos to make it a total of 5 videos again.. and there are still only 3 showing on the listing

Add a button under the Seller's name that says Sellers Profile Page and then directs them to the Seller Profile Page. .
That button and the "see more" under the horses for sale and horses sold would all point to the Seller's profile page.

Description *

[illegible]

The image is a composite of three parts. The top part is a dark blue header with the word "FOR SALE" in white on the left, a large white heart icon on the right, and the word "BLAKE" in large white letters in the center. Below the header is a photograph of a brown horse and rider jumping over a blue and white obstacle in an indoor arena. Below the photo is a dark blue bar with the text "FRIESIAN CROSS" in white. Underneath this bar is a white table with two columns and three rows of information. The first row contains "5 YRS 7 MOS OLD" and "CHAMPAGNE". The second row contains "16.2 HH" and "REGISTERED: YES". The third row contains "MARE" and "GAITED: NO". Below the table is a white bar with the text "LAFAYETTE, NJ" in dark blue. Underneath this bar is a dark blue bar with the text "PRICE: \$25,000" in white. Below this bar is a white table with two columns and two rows of buttons. The first row contains "SELLER PROFILE" and "CHAT WITH SELLER". The second row contains "SHARE" and "FAVORITE" with a heart icon. The bottom part of the image is a green advertisement for coffee, featuring a dark blue coffee bean on the left, the text "FRESH BREWED" and "BEST COFFEE" in white and yellow, a small coffee bean on the right, and the website "www.example.com" at the bottom right.

I uploaded 2 PDF's and a pic. On the listing page the first selected one is as shown. Which doesn't make sense if the first one is a PDF. Also I requested that its a document preview not just the PDF icon.

We have worked on this. Images are displayed in the box, while DOC files are downloaded because they cannot be previewed in the browser. When clicking on a PDF, it opens in a new tab, which is better for reading. However, if you want the PDF to be displayed inside this small box instead, we can fix that as well.

When there are no ads yet for horses, services or real estate please add a plus sign and says CREATE AN AD. If they have show points then it will go to creating that ad.. if they didn't purchase show points yet it will take them to the package tab to buy them.

This was never discussed before. These are routine changes.

I added 4 files to this 3 pictures and 1 PDF. Only 1 is showing on the preview and only 1 on the front end.

The account details are not filling in to this section. I have a description and picture, website and contact info and its not populating onto the seller/agent page.

I also notice that the account details is pretty specific to just horses. That needs to be something we address.. but I think for now its ok.

I did have information in here.. after I fill it out and press save, it all disappears.
